# HANDHELD

## LEADING MANUFACTURER OF RUGGED MOBILE COMPUTERS

Handheld is a top producer of rugged mobile computers and has rapidly become the fastest growing company in our industry. Our devices are utilized across a broad range of field environments, even in the harshest conditions. Boasting over 25 years of rugged industry experience, we've successfully deployed solutions for nearly all types of businesses.

We have a strong network of dealers in multiple vertical markets throughout the world. Together with our business partners, we supply complete mobility solutions to businesses within industries such as logistics, warehousing, transportation, construction, forestry, GIS, field service, military and public safety. Handheld, a MilDef company, is headquartered in Lidköping, Sweden. Handheld has subsidiaries in Germany, Switzerland, United Kingdom, Australia and the US.

Take a look at our multilingual website for more detailed information about Handheld and our complete line of rugged mobile computers.
