

DT-10 - 10" Tablet POS System

- 10" Tablet
- Windows 10 IoT 64 Bit
- 1280 x 800 Pixel
- Capacitive Touchscreen
- IP65 Protection
- Dual-Band Wireless LAN
- Full features POS System with additional stand (optional)

Designed for POS applications, the tablet is a semi-rugged Windows 10 IoT ready device featuring a 10.1" capacitive touch display, a quad core Intel Atom processor, 4GB DDR3L RAM and 64GB eMMC storage. For wireless connectivity, the tablet is also equipped with dual-band Wi-Fi and Bluetooth 4.0.

When mounted onto the optional Smart Docking Station, the tablet transforms instantly into a mini-POS station for counter services. In addition to charging the tablet, the Smart Docking Station provides connectivity to POS peripherals via USB, Serial, RJ-11, and RJ-45 ports.

The unique security alarm sounds an alert when the tablet moves outside the preset Wi-Fi coverage area. The tablet can also be locked with a key when mounted on the Smart Docking Station, effectively preventing loss or theft.

Technical Specifications:

- CPU: Intel Atom Quad Core 1.44GHz (1.83GHz)
- Operating System: Windows 10 IoT 64 Bit
- Display: 10.1" 1280 x 800 IPS Display
- Touch Panel: Capacitive Multi-Touch
- Memory: 4GB DDR3L RAM, 64GB eMMC Flash
- Memory Extension: Micro-SD Card Slot supports up to 64GB
- WLAN: 802.11 a/b/g/n
- WPAN: Bluetooth 4.0
- NFC: Frequency 13.56MHz, Support ISO14443A/B, MIFARE
- Sensors: G-Sensor
- Cameras: 5MP (Back), 2MP (Front)
- LED Indicators: Power- and Power-LED
- Audio: Mono, Mikrofon
- Keys: Power key, Volume up/down key
- USB: Micro-USB 2.0, USB 3.0 Typ A
- Main Battery: Built-in rechargeable Lithium battery
- Battery Life: Operating time - 8 hours, Standby time - 100 hours
- Charging: AC/DC adaptor, USB or Smart docking station (Optional)
- Environment IP65 Rating, Withstand multiple drops from 1.0m onto concrete
- Dimension: 282mm(L) x 188mm(W) x 20.8mm(T)
- Weight: 935g
